Lost, damaged, or outdated, whether they are stored in digital or hardcopy format.

Decades of disorganization = no morale or confidence within their teams.

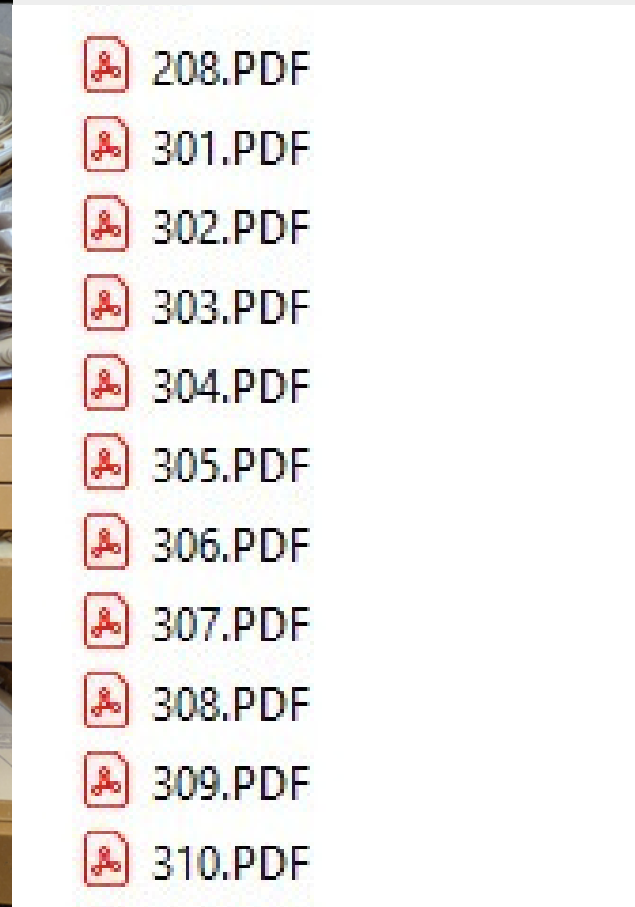

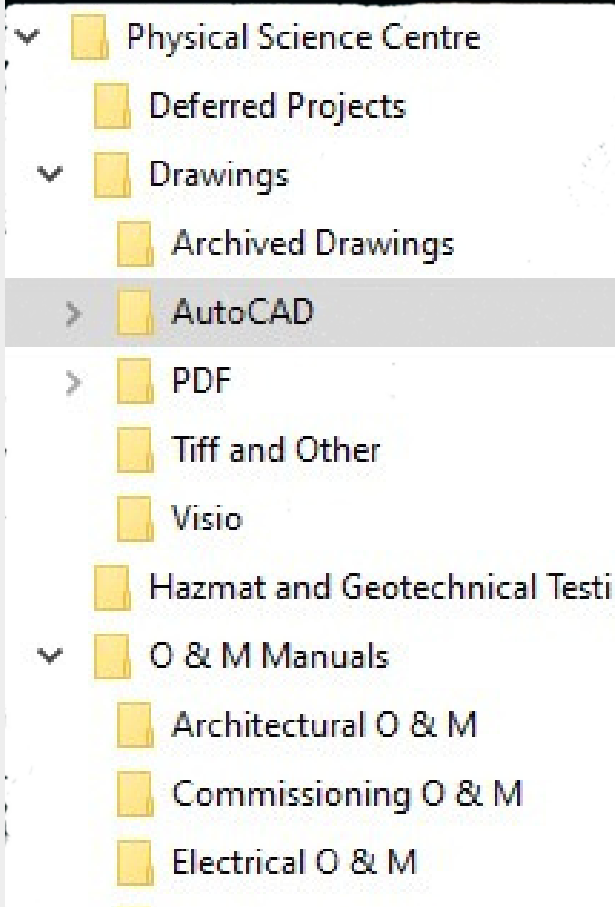

Waste valuable time and money searching.

THESE PROBLEMS EXISTS GLOBALLY WHEREVER FACILITIES ARE MAINTAINED

The most common approach to solving your engineering drawings worldwide is to scan them and store them on file servers, in digital PDF format, or in CAD files, often across multiple locations. This causes more chaos making them difficult to find and access.

FROM THIS

Making the world accessible, one drawing at a time.

TO THIS

We roll up our sleeves and do the heavy lifting, taking their blueprint burden away.

Compress years of project history into a new master set, layered by discipline per floor.

GO DIGITAL

MAINTAIN
standardized

Customize and populate our app, echo with their relevant drawings.

We partner with our clients to keep their drawings accessible and accurate for the future.

Fix Digital with echo Drawing management software

Created by DCM Inc. echo is our proprietary drawing management software. echo helps you store, organize, track version control, search, mark up and retrieve your drawings easily within seconds from one single source of truth.

It's an integral tool in a strategic strategy, dedicated to ensuring the precision of your plans.

Go Digital with our hands-on white glove service

Exclusively by DCM Inc. hands-on Drawing Services such as assessment, extraction, audit, file processing, scanning, and drawing data collection. This stage is where we take your paper drawing chaos, bring clarity and make them digital.

Get Clarity with Baseline Master CAD Plans

Created by DCM Inc. baselines provide comprehensive drawings as a foundation for all future projects. These multi-layer master CAD plans compress years of history into one drawing, everything you need, all your facilities superpowers in one place.

Keep up-dated with + Maintain

Uniquely Offered by DCM our CAD drawing management maintenance packages are a critical phase that provides on-demand drawing updates to ensure your drawing assets remain up-to-date and digitally accurate as your facilities grow.

Clean Tech

October 2022

- Your drawing room is empty

3,028 less drawings

Improvement

January 2023

- Your project history is accurate
- Building plans are digital
- It's easy to find them and share them

2,716 less drawings

Improvement

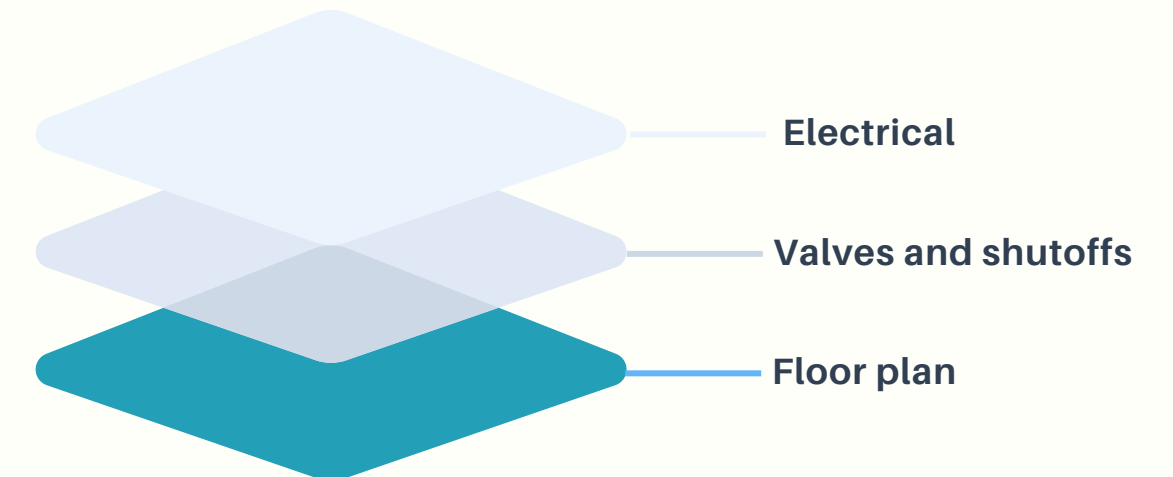

With + maintain package:
we update all project plans
moving forward!

March 2023

- We compressed all the years of history, put the puzzle pieces together, and stack disciplines over the floor plan.

MASTER CAD FILES

Now you'll really see your facility clearly!

GO DIGITAL

organized

- 50,000 blueprints
- decades of disorganization
- everything stuffed in boxes spread out over 8 facilities
- It took 1-4+ hours to find one drawing
- new projects had high bid costs because there were missing drawings
- change orders during projects were high

FIX DIGITAL

modernized

- we came on-site and loaded 50,000 blueprints into **10 crates**
- sorted through 50,000 HCs, separating the accurate drawings from superseded and duplicates
- pulled hundreds of rows of data from each master
- uploaded 7,062 master drawings into echo

GET CLARITY

optimized

- Their new drawing app gets **7,062 master** drawings with catalogued search data
- That's **86% less drawings** from 1 month before
- They can find drawings in under a minute
- They can share drawings in a snap

MAINTAIN

standardized

- We squashed 7,062 masters drawings into **140 baselines**
- A drawing reduction of **99.7%**
- 52 drawings for Floor 2 Lighting turned into **one baseline CAD drawing**
- Finding drawings now takes seconds

October 2022

- Your drawing room is empty

47,319 less drawings

69%

Improvement

February 2023

- Your project history is accurate
- Building plans are digital
- It's easy to find them and share them

20,716 less drawings

99%

Improvement

With + maintain package: we update all project plans moving forward!

June 2023

- We compressed all the years of history, put the puzzle pieces together, and stack disciplines over the floor plan.
- Approx, 3 Baseline Master CAD Plans per floor

MASTER CAD FILES

Now you'll really see your facility clearly!

Making the vision a reality

Modernizing your drawing management system is a BIG decision.

We get it—we'd want to know who we're investing in, too!

For 20 years, these companies have trusted The Drawing Specialists to powerhouse their drawing management and futureproof their system. We don't hand off a product! We're here to stay and support you today and tomorrow.
