VisFuture

History

Founded by Stephen Chan in 2021 with key team members inherited from Dapasoft. VisFuture is growing fast with strong foundation.

Dapasoft Inc. was also founded by Stephen in 1997 and acquired by Calian, a public traded company, in 2021.

VisFuture

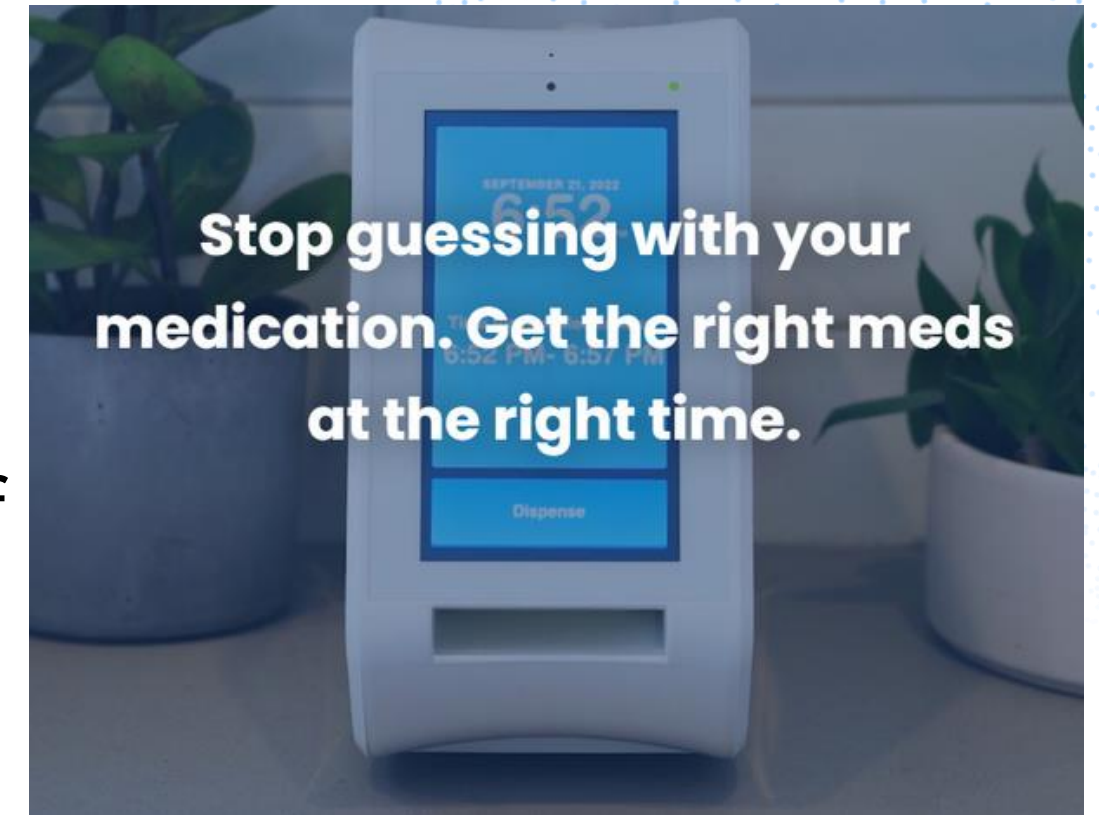

Our Strength

- Expertise in design, integration, and development of custom enterprise software solutions and digital transformation.
- Over 30 full-time employees and approximately 20 associates.
- Served clients in public and private sectors providing various IT consulting services, including custom software development, IT consulting, networking and infrastructure services.

Our Reference - 1 / 2

Enables the real-time flow of health data and insights between patients and pharmacists, fortifying the circle of care. Provides peace of mind and eliminate guesswork.

Our Reference - 2/2

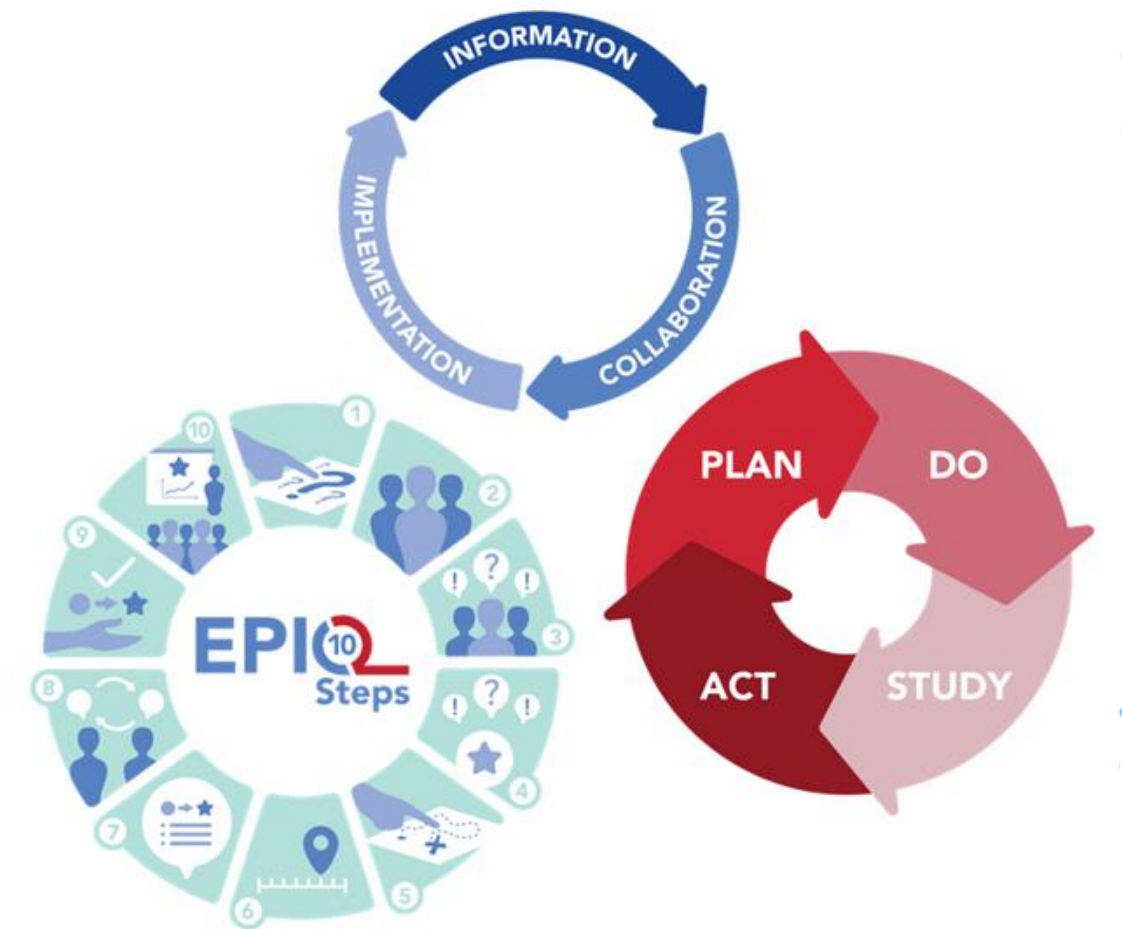

Canadian Neonatal Foundation (CNF) is a non-profit organization.

Stephen Chan is a board member of CNF.

VisFuture developed portal and EPIQ system for CNF

The Evidence-based Practice for Improving Quality Program (EPIQ) is a multifaceted process that helps healthcare teams collaborate on quality improvement goals.

CNF has partnered with the International Pediatric Association to make EPIQ teaching materials freely available to low and lower-middle income countries.
