# About Us

Canadian Software  
Consulting Company

Founded 2012

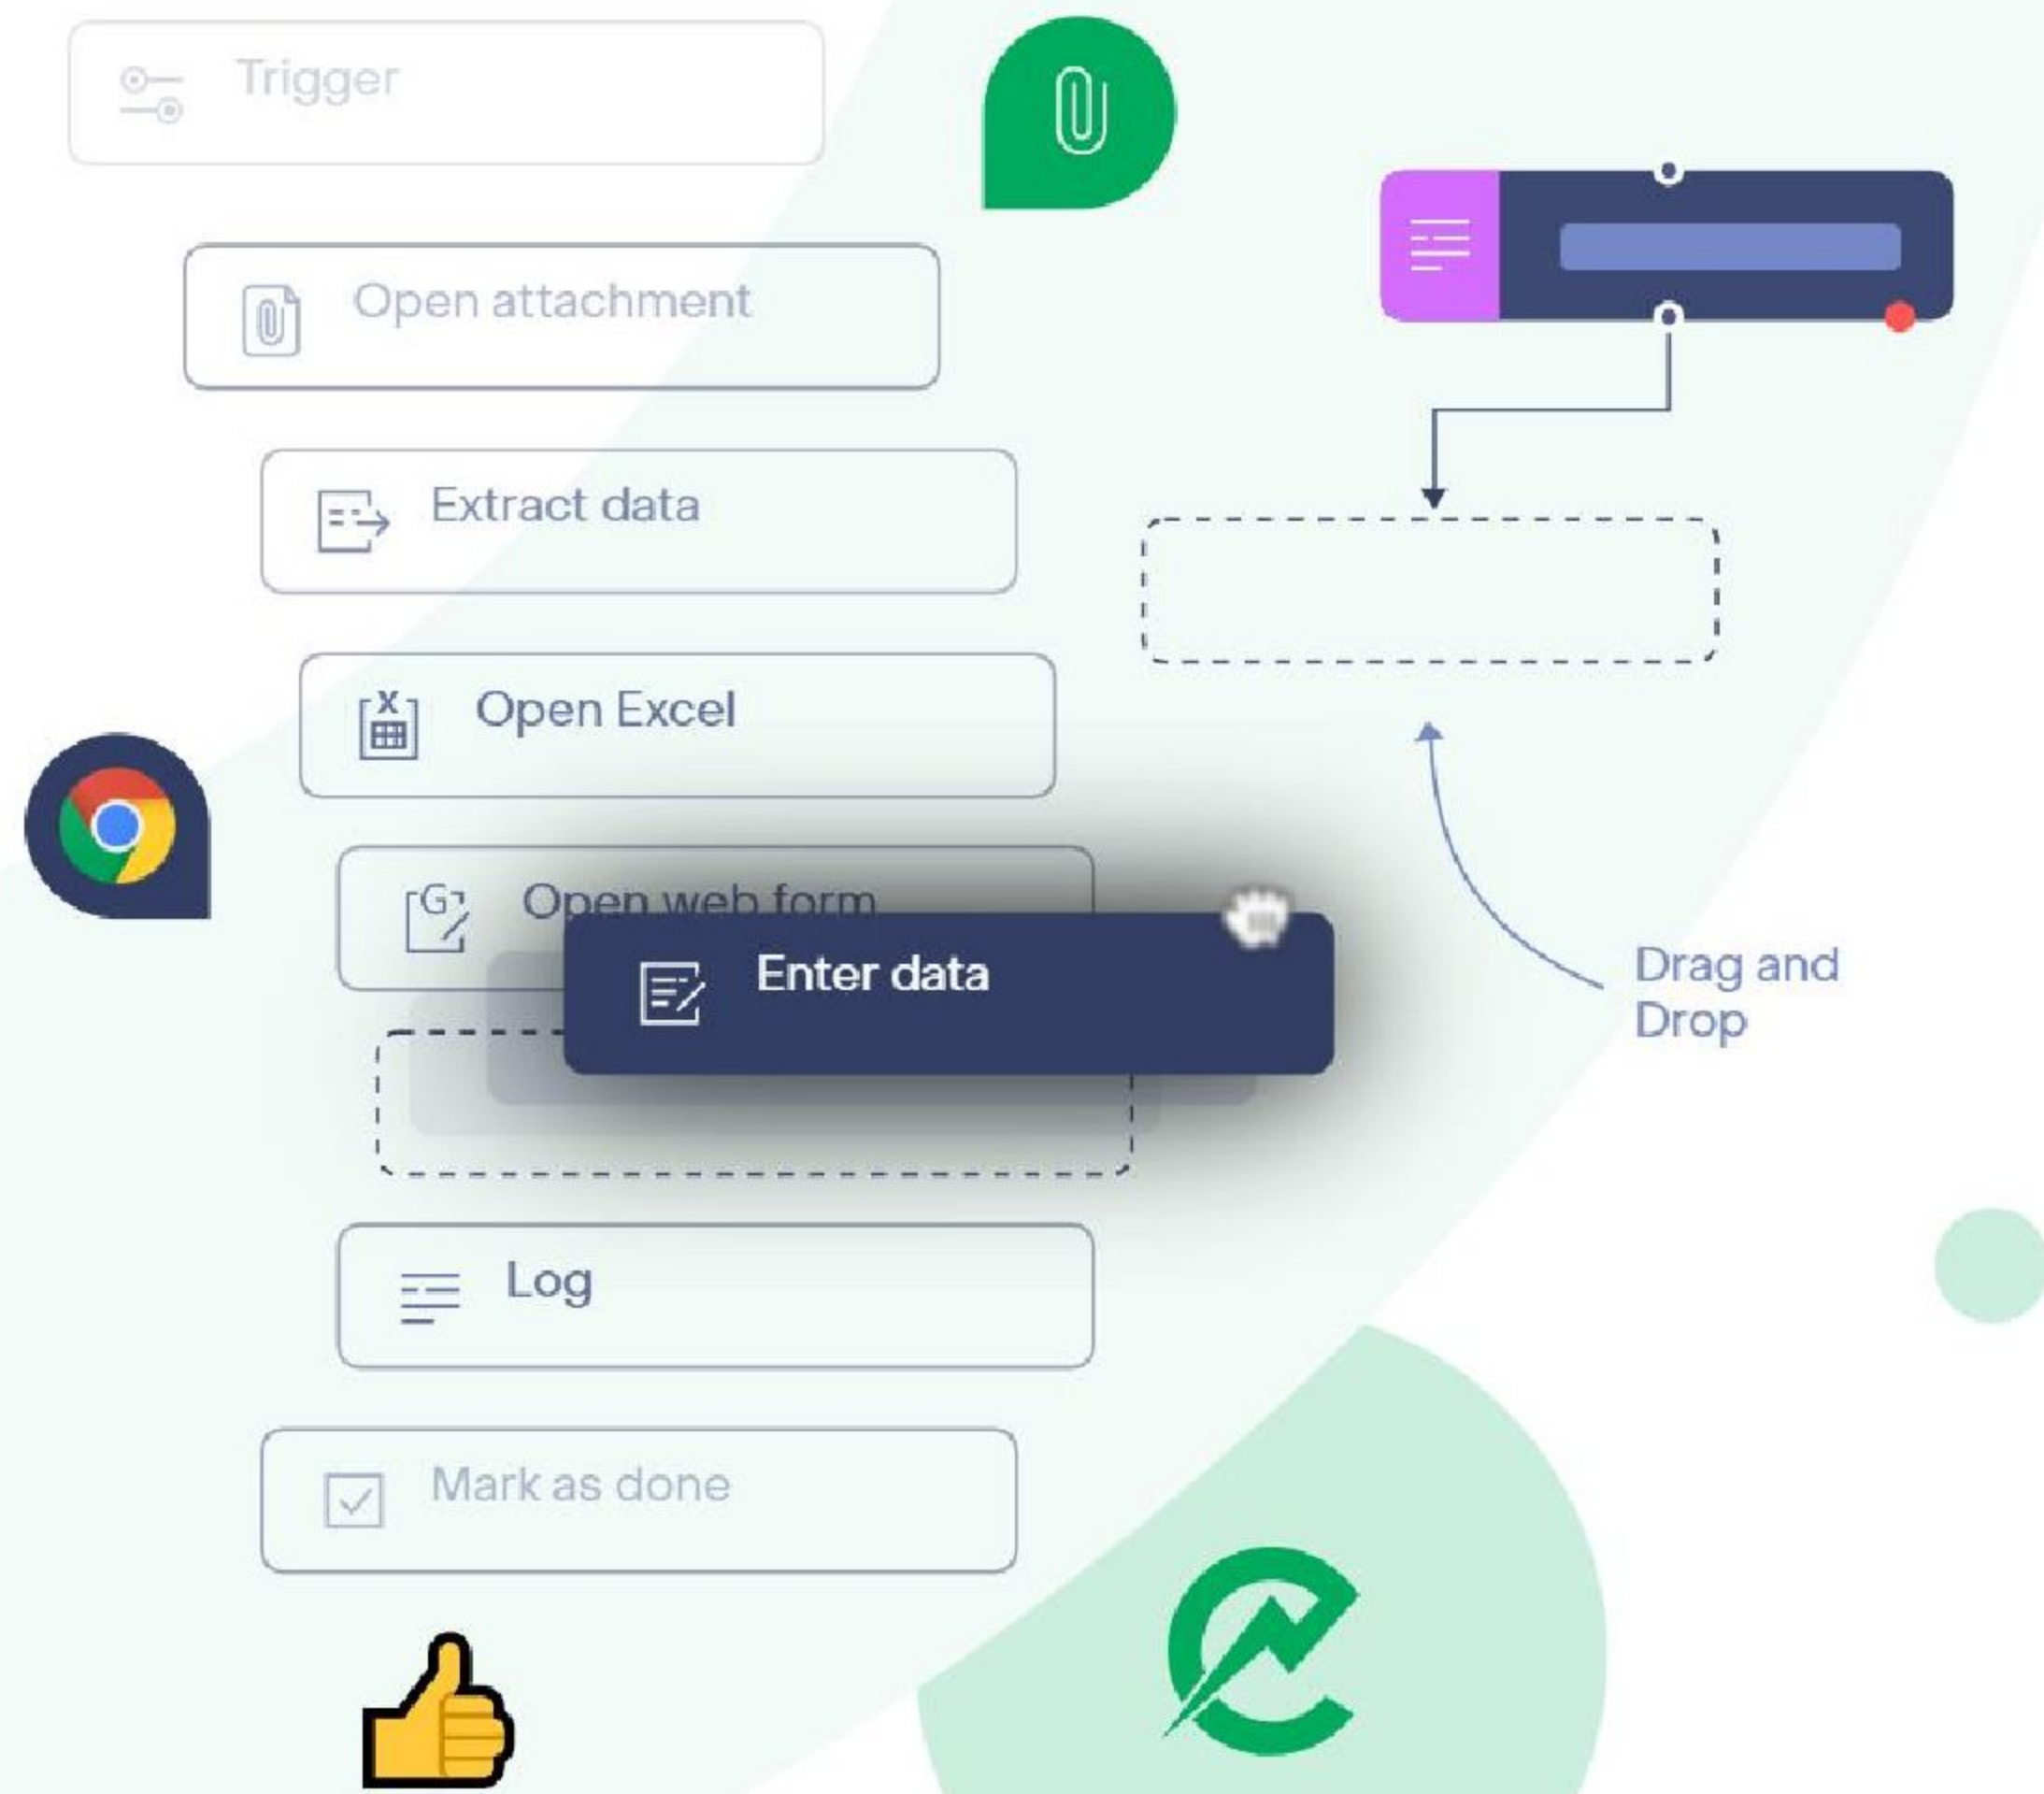

Custom soft dev &  
Integration RPA &  
AI

HOLT RENFREW

# What exactly is RPA?

## ROBOTIC

Software with the capability to **mimic human behaviour** and executed repetitive tasks.

## PROCESS

A sequence of **tasks** that lead to a meaningful **process**.

## AUTOMATION

Tasks happens automatically **without human intervention**. (mouse, keyboard and integrations with Other applications)

Cross Functional

Across Multiple Systems

---

By the end of 2025, 95% of Fortune 500 companies **will** have adopted RPA.

But now, with ApexBit Solutions, RPA is accessible & affordable for all businesses.

### The most automated functions

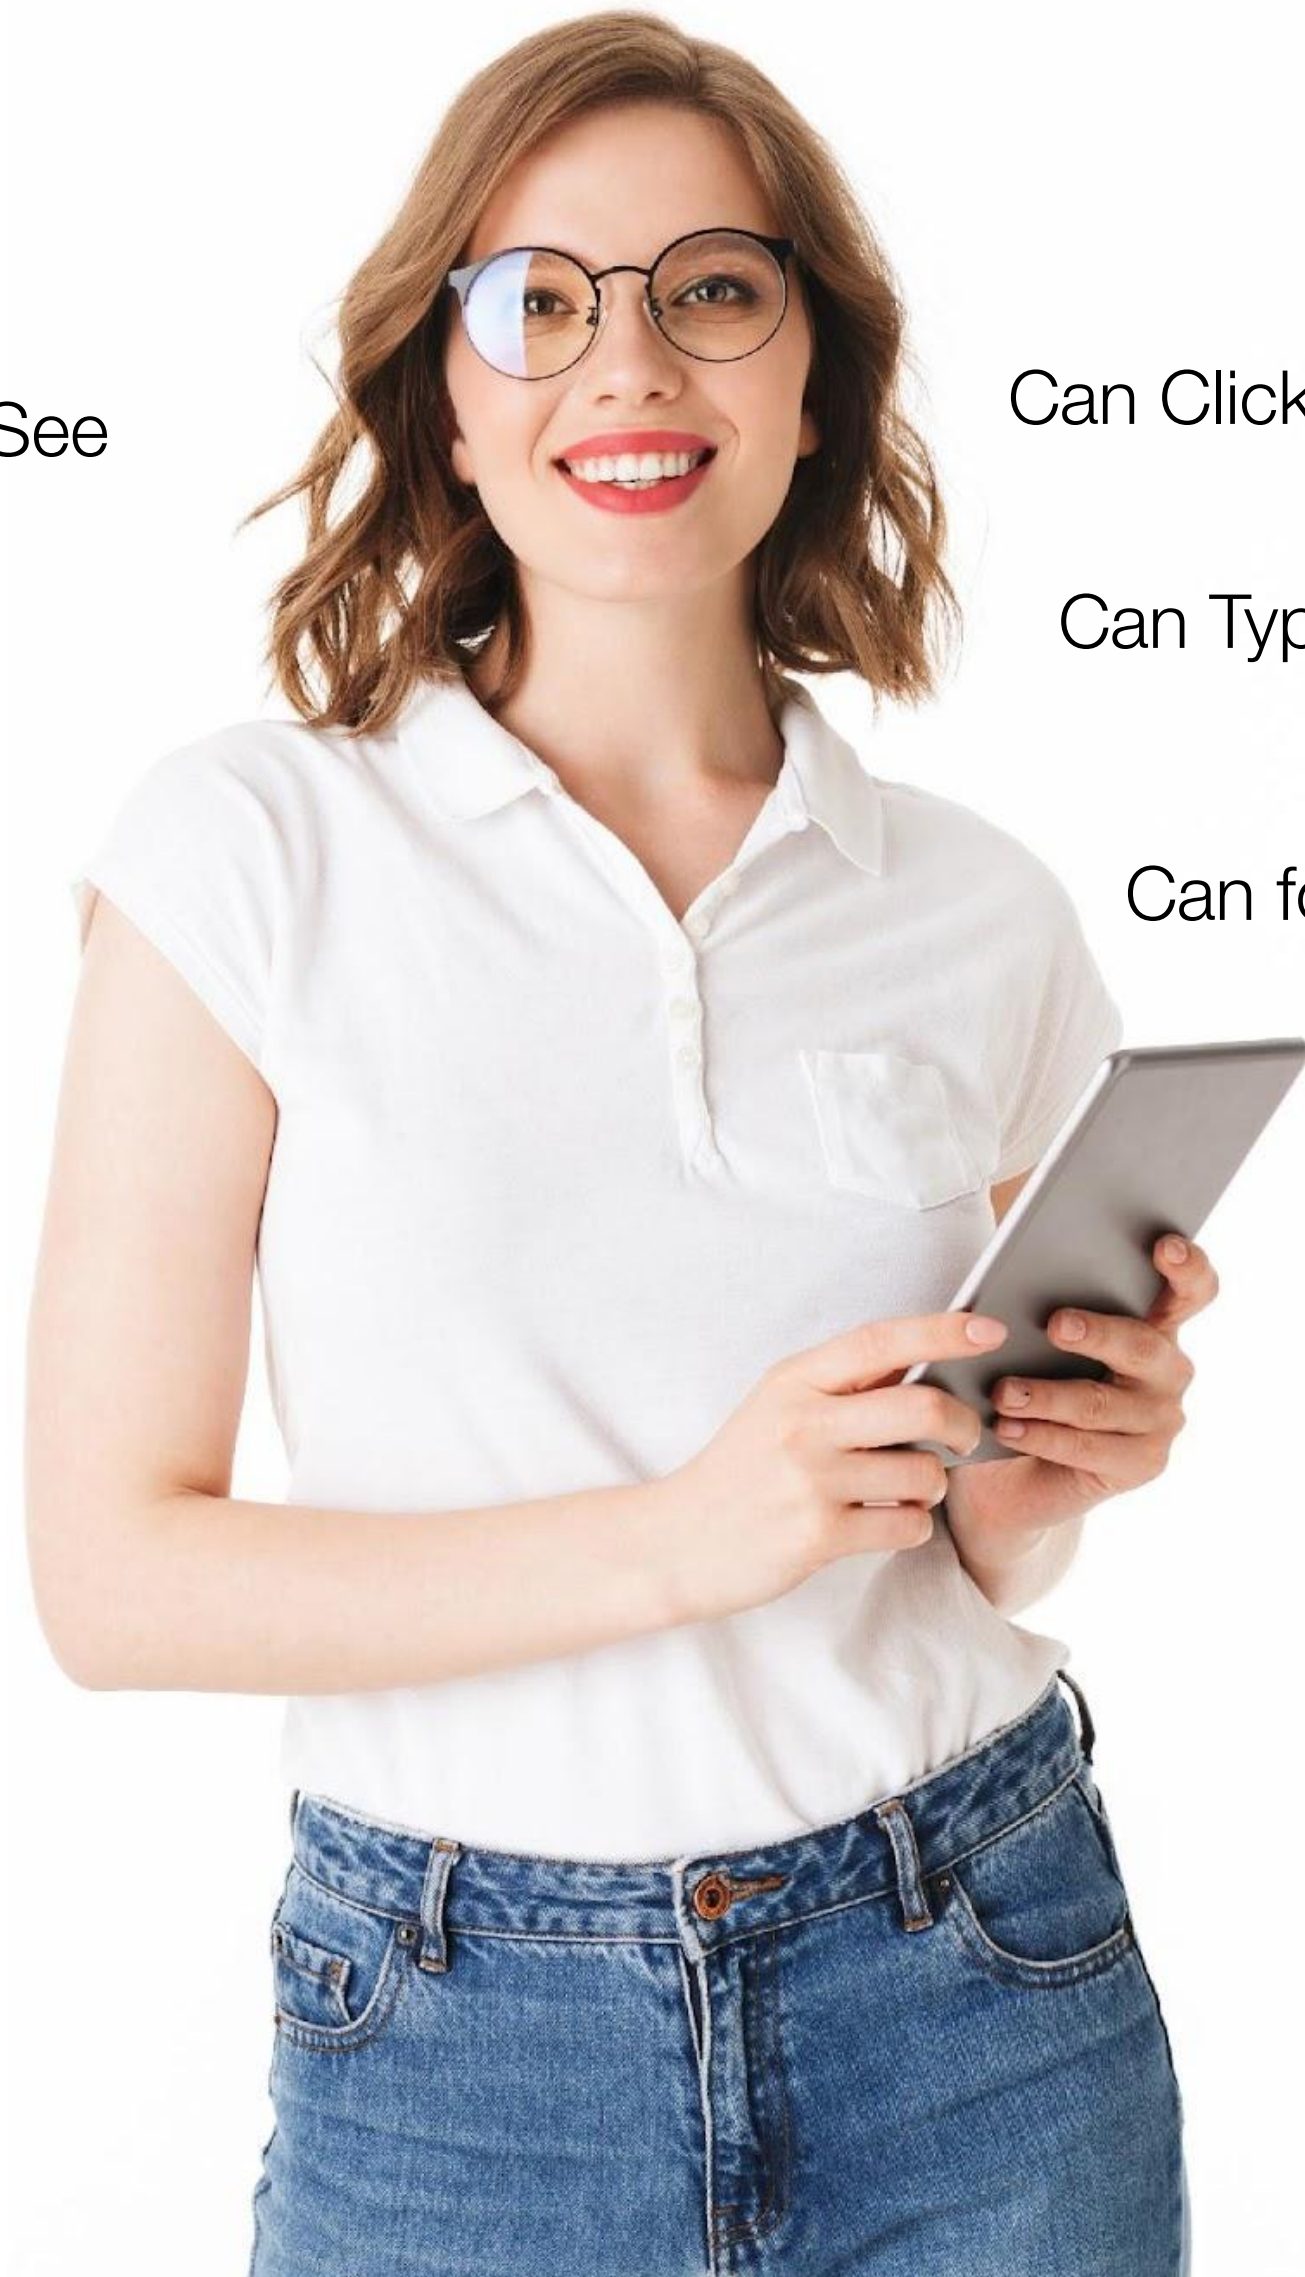

- Finance
- Sales
- Operations
- Marketing
- HR

### Leading adopters

- Banking
- Insurance
- Healthcare
- Telecom
- Construction

# Back office team member

Can See

Can Click mouse

Can Think

Can Type on Keyboard

Can Remember

Can follow a Process

Can Communicate

Rote rules based tasks -  
80%

Meaningful tasks -  
20%

- Data Entry
- Account Payables and Receivable
- Admin Scheduling
- Invoice Processing

- Build Customer Relationships
- Customer Retention
- Business Development
- Generating new Ideas

# Software Bot

Can See

Can Think

Can Remember

Can Communicate

Can Click mouse

Can Type on Keyboard

Can follow a Process

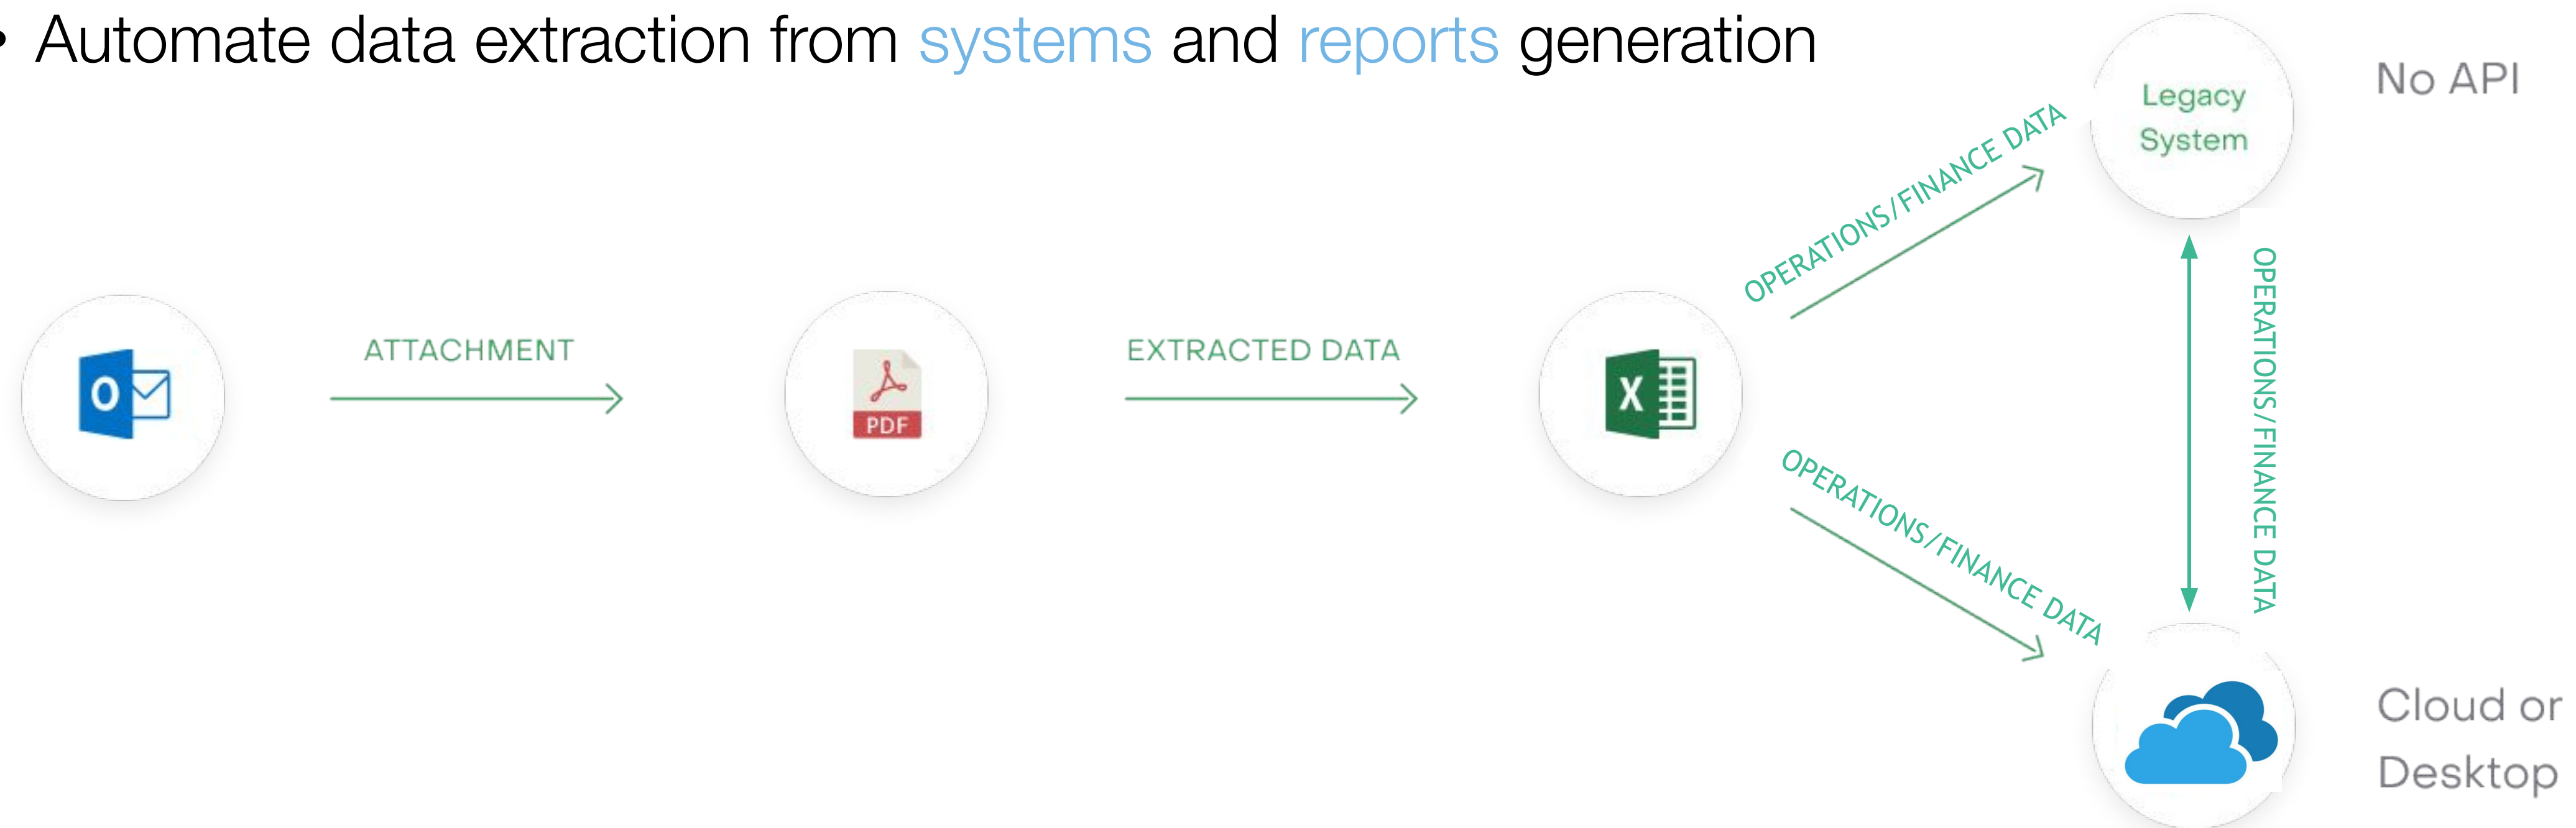

Trained to follow a  
repetitive process-  
100%

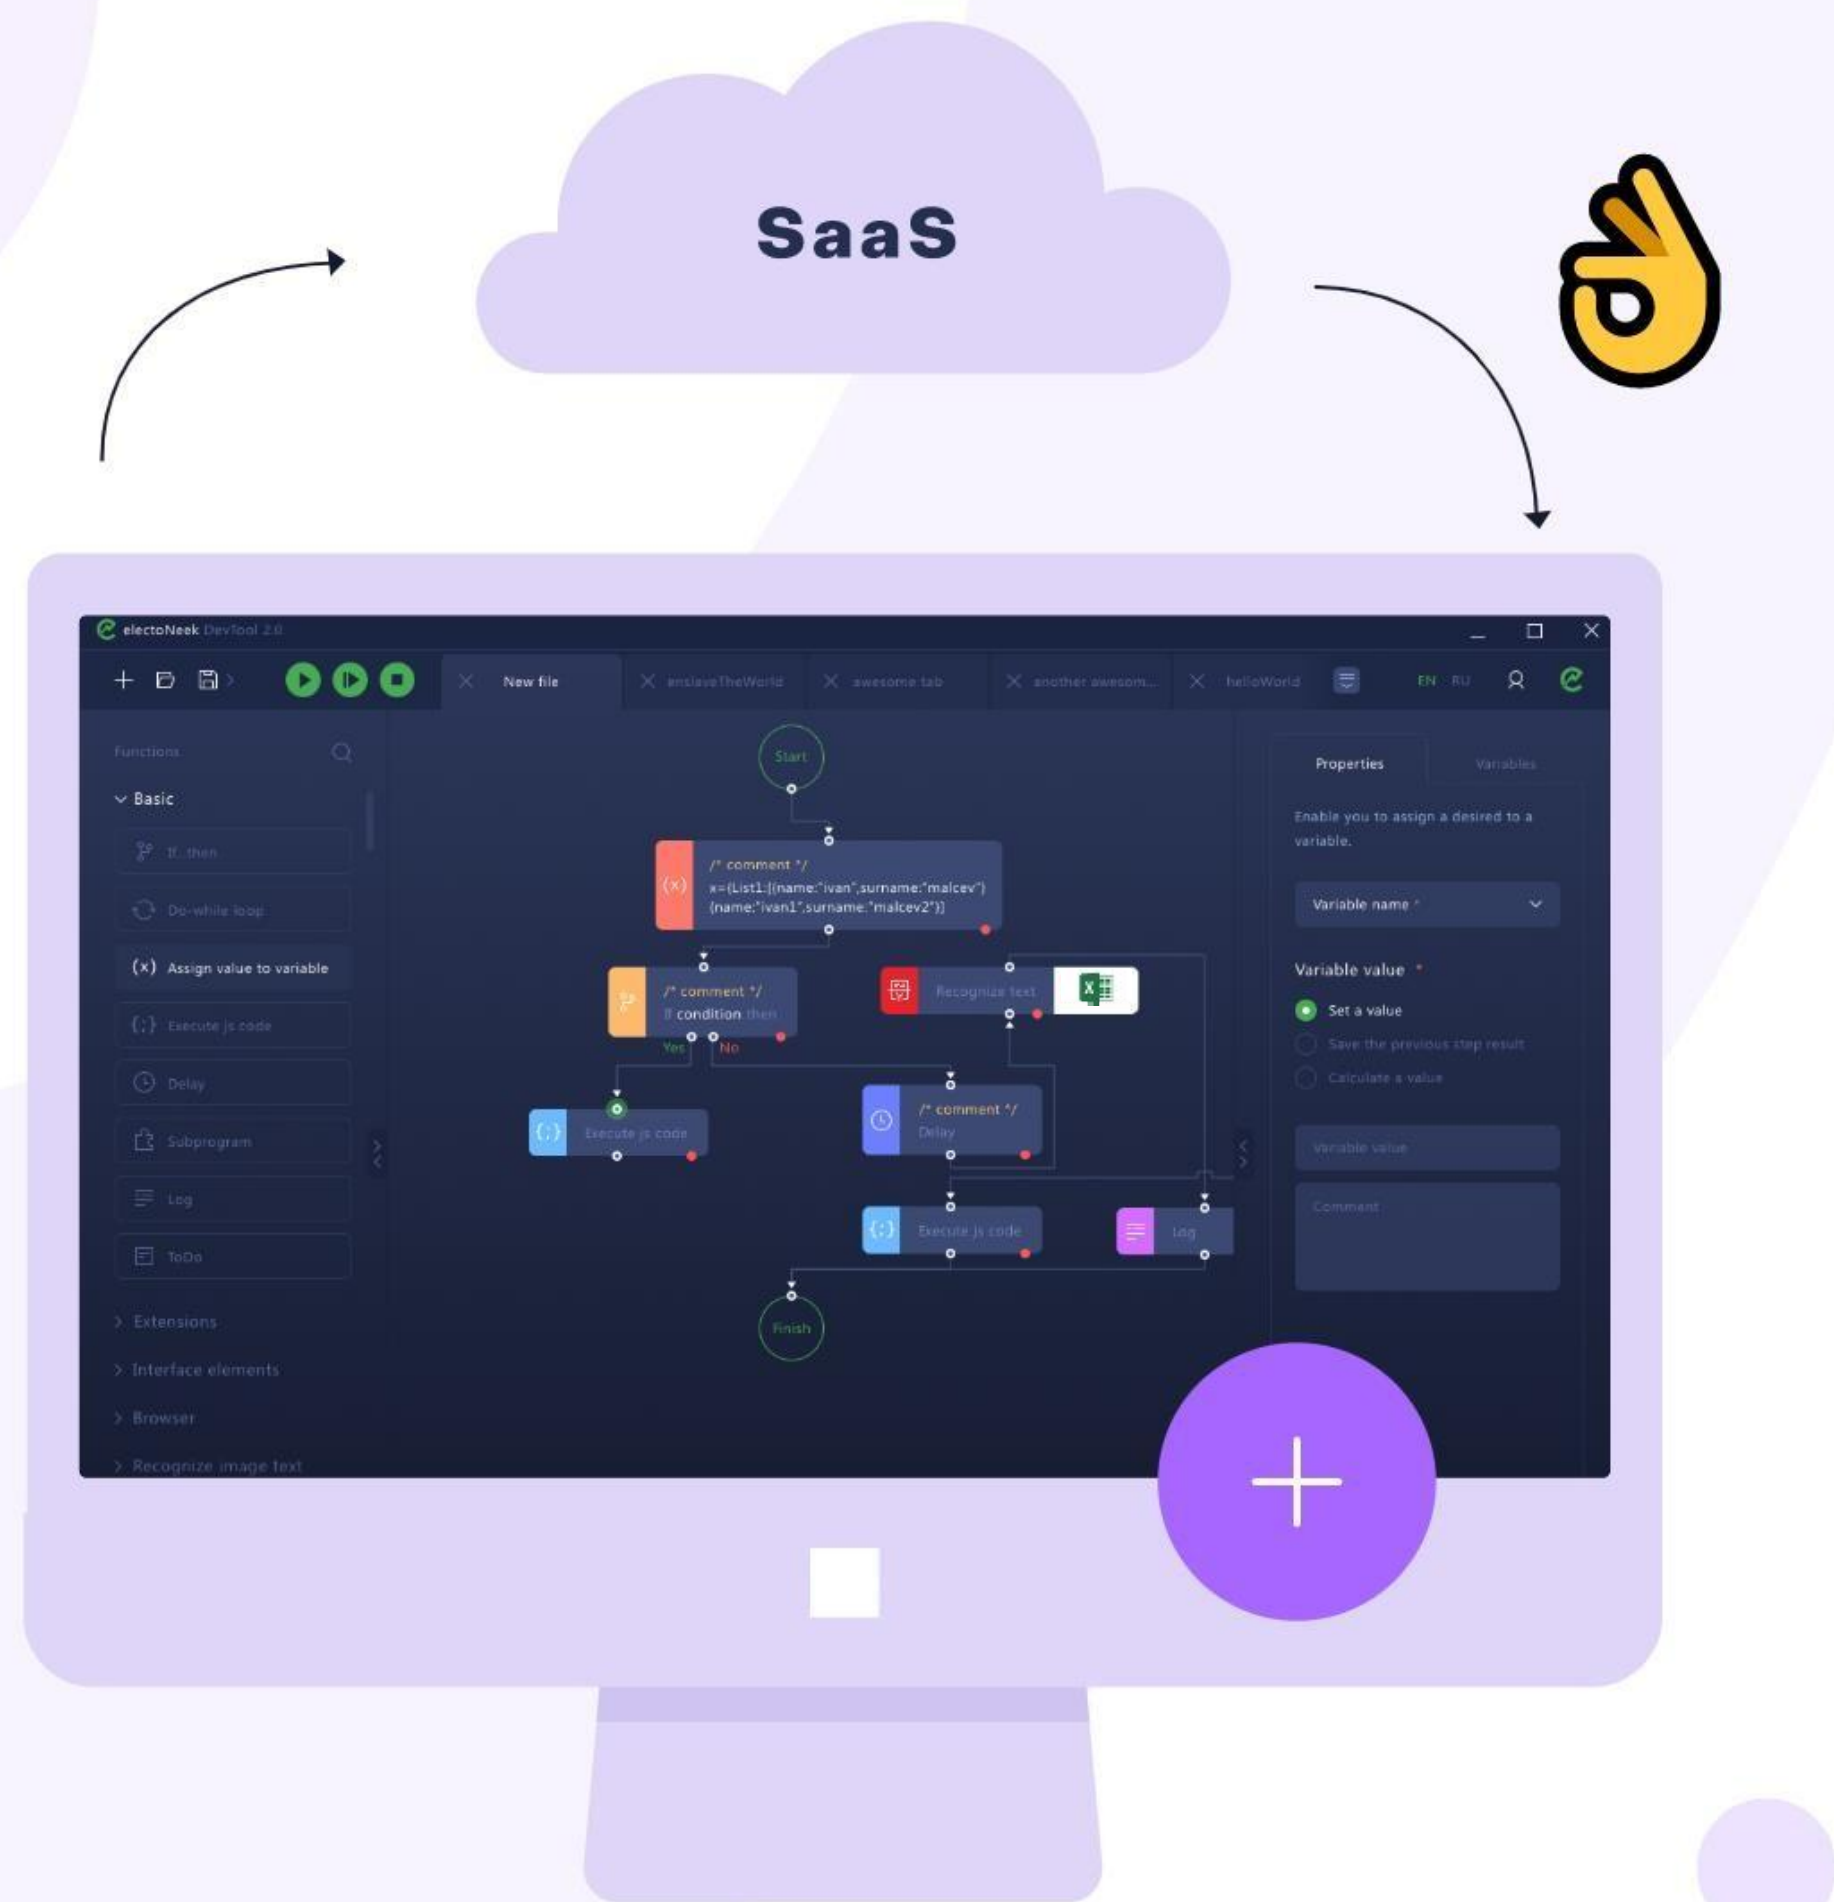

- Data Entry
- Account Payables and Receivable
- Admin Scheduling
- Invoice Processing

- One time Development Cost
- Zero Manual errors
- Can work round the clock
- Scale-up with you business at no added cost

# Unleash the Potential:

- Automate data transfer between **Operations Management Systems** and **Financial System**
- Automate data extraction from emails and feed that information into **Excel, Database, webforms** or **other applications**
- Automate **Order Processing**: From tracking new orders to inventory updating to managing delivery and getting customer feedback
- Automate **Invoice** to **Payments** process (AR & AP)
- Automate data extraction from **systems** and **reports** generation

## So, how does it work?

- 1 We get an understanding of your current processes
- 2 We build the robot, test and deploy
- 3 The bot starts working and you can go play golf

How fast can this happen?  
Weeks not Months!

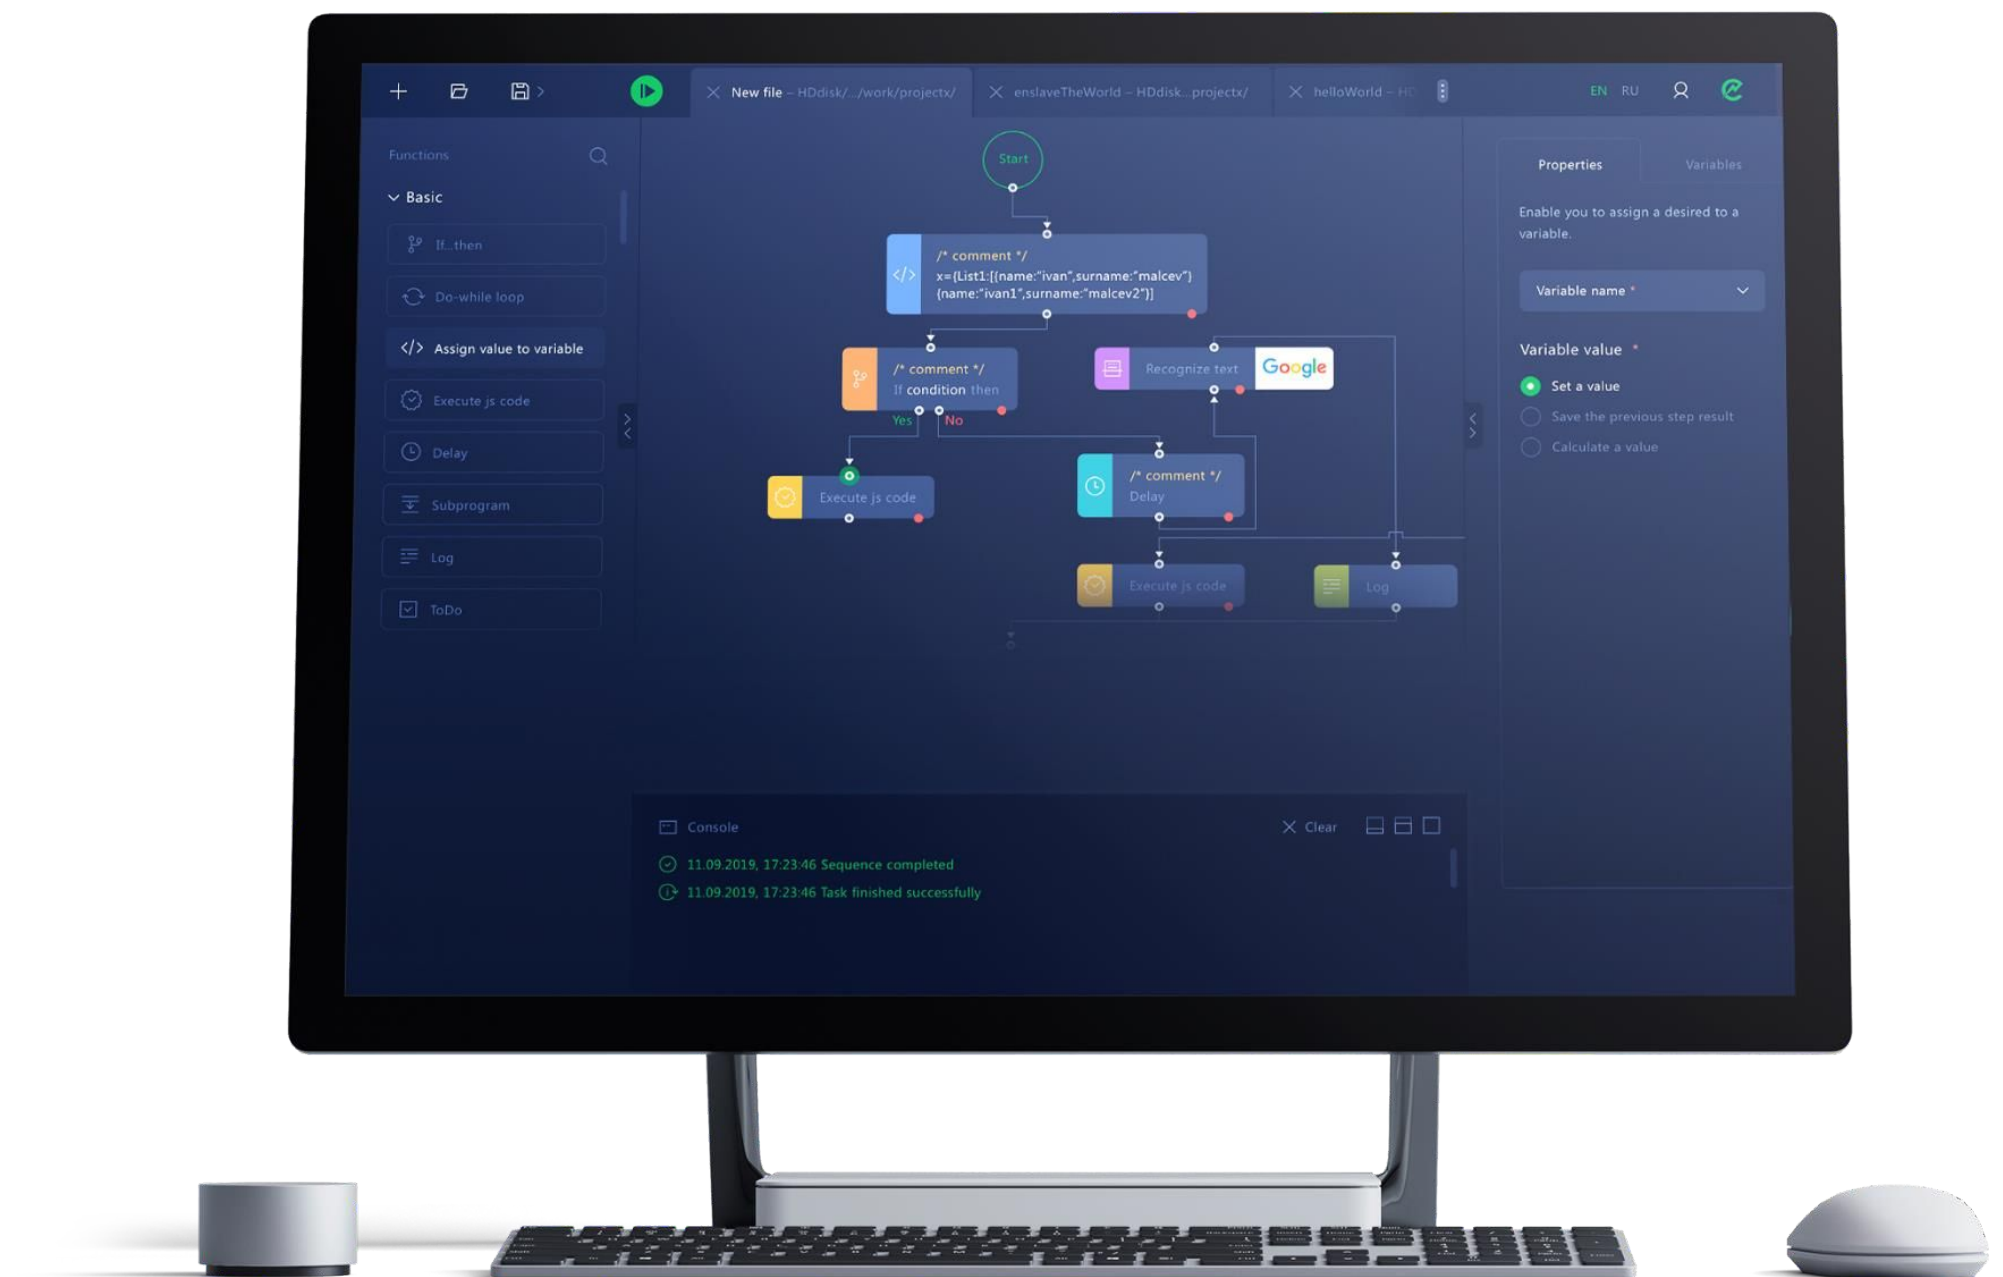

\*\*3rd party dev platforms

# Pricing

- Integration cost per process bot

## Included:

- Process Evaluation and Ideation
- Solution Identification
- Development & Deployment
- Support for 3 Months

---

Thank you, we can't wait to schedule your onboarding
